

Chief Financial Officer

- A leading North American supplier, processor and wholesale distributor of premiere Northern Atlantic seafood products -

Daley Seafoods, an established brand with processing plants strategically located on the shores of Atlantic Canada's clear, clean waters, we are a leading North American supplier, processor and wholesale distributor of seafood products. We have a strong commitment to environmental sustainability and high production standards is at the very heart of providing clients, all over the world, with Daley Seafoods premium Snow Crab, Lobster and a variety of other seafood products. Our administrative office is headquartered in Mount Pearl, Newfoundland and Labrador, with international Seafood Processing facilities located in Baie-Sainte-Anne, New Brunswick and Baie-Trinite, Quebec. Engaged by Thai Union Canada, we oversee the operations for their processing plant, Les Pecheries de Chez Nous Seafood Processing Facility in Tracadie-Sheila, New Brunswick and buying station in Bass Harbour, Maine. In addition, we have other diverse companies within our group including Chatters hair salon franchises and construction and fabrication companies, based in Newfoundland and Labrador.

A growing organization, Daley Seafoods is seeking an adaptable, highly motivated professional to join the organization as a strategic and dynamic **Chief Financial Officer (CFO)**.

Reporting to the President, the CFO will play an integral role in the leadership of the financial and the execution of its strategy. As an integral member of the senior leadership team, you will have specific responsibility for the oversight of corporate finance, budgeting, performance management, contracts and stakeholder management, financial planning, internal controls, treasury and tax planning. Focused on constantly looking for better ways to run the business and continuous improvement, you will ensure Daley Seafoods has the structure, the people and the capability to achieve the projected growth plans and overall business strategy.

The ideal candidate is a proven business leader with a reputation for fostering organizational growth and development. Your post secondary education in finance or accounting, combined with a professional accounting designation and a minimum of 10 years' senior financial leadership experience, preferably within a fast-growing and entrepreneurial organization, makes you a great fit for this organization. You have a successful track record and expertise in identifying and driving value in an organization, as well as a reputation for being a trusted business advisor who fosters strategic organizational improvement and success. You have the ability to communicate financial analytics in a clear and concise manner and you are highly capable of leading complex negotiations. You have a strong interest in overall business operations and you are a big-picture thinker who is comfortable and effective working both at a strategic and a tactical level. Experience in the fishing industry is considered an asset.

Join North America's leading supplier, processor and wholesale distributor and be a catalyst for growth and success.
