

Hello. Is it YOU we're looking for?

Cozy greetings from the Mysa team! We're a company founded on people-first culture, fueled by our mission to lead the global shift toward electrification. Through the creation of life-simplifying smart HVAC controls for homes and businesses, we're helping our customers save energy, money, and the planet we share.

We are looking to fill a Fixed-Term Accountant role for our Finance Team in St. John's, NL or remotely!

Role Overview:

This is a fixed-term role covering a parental leave on our Finance team, reporting to our Financial Controller. You'll own a core slice of our month-end close, full-cycle accounting across various reconciliations, technical journal entries, and inventory/cost accounting, and partner closely with the Controller on the judgment calls and other tasks as required.

It's a great fit for an accountant who likes owning real responsibility from day one, is comfortable across the general ledger, and wants to leave a process better than they found it (we're continuously building AI-assisted and NetSuite-native automation tools, and you'll help).

What You'll Do:

- Prepare various technical month-end journal entries
- Complete balance-sheet and general-ledger reconciliations and keep clean, audit-ready working papers.
- Own the accounts receivable process for our B2B and MysaHQ customers throughout North America.
- Handle inventory and cost accounting for inventory located across North America.
- Assist with financial reporting, supporting the preparation of period-end financial statements and reporting packages.
- Work closely with the Financial Controller and other tasks as required.
- Help us continue to automate the manual work through the use of AI and other tools

Your Star Qualities

- A CPA designation (or in progress), with 3+ years of full-cycle accounting experience.
- Confident with general-ledger work, month-end journal entries, reconciliations that you own independently.
- Hands-on with NetSuite (or a comparable ERP) and strong in Excel/G Suite.
- Bonus points for inventory or cost accounting, cross-border (CA/US) customs and duty, or e-commerce (Shopify/Amazon) accounting.
- Detail-oriented, organized, a clear communicator, and quick to ramp within a fixed term.
- Curious about using AI and automation to make accounting faster and less manual.

More About Mysa

Since entering the North American market in 2018, our thoughtfully-designed-in-Canada smart thermostats for electric heating or cooling have been warmly welcomed into customers' homes and hearts, garnering thousands of 5-star reviews.

Recognized as a leading employer in the booming Canadian tech sector, we were named the 2022 Tech Company of the Year by Tech NL, and have been recognized as one of Atlantic Canada's Top Employers for multiple years.

By creating innovative smart home tech to help our now-global customer base use their home and business energy more efficiently, we're living our mission to fight climate change and build our electric future.

Why Join Our Team?

Simply put, it's all about you. We recognize and respect you as an expert in your field, and support you as you grow and thrive in your role.

At Mysa, we're proud to provide perks like:

- Flexible paid time off
- Flexible environment & hours
- Competitive hourly rate structure
- Annual hourly rate increases
- Modern, open, and progressive office environment
- Quarterly team building initiatives
- Fully stocked "Snack Center"
- Company-provided lunch every Friday...and more!

Mysa is an equal opportunity employer committed to promoting diversity and inclusion across race, gender, sexual orientation, religion, ethnicity, national origin, and all things that make us different and wonderful. Your application to this posting is deemed consent to the collection, use, and necessary disclosure of personal information to facilitate our recruitment process. We respect the confidentiality and privacy of all of our applicants.

Interested in this role, but unsure if your "on-paper" qualifications match? Apply anyway — we're always looking for team members who break the mold.

Thanks for considering Mysa as your future work home. We're excited to get to know you.
